

Enabling MACRO in Excel 2007

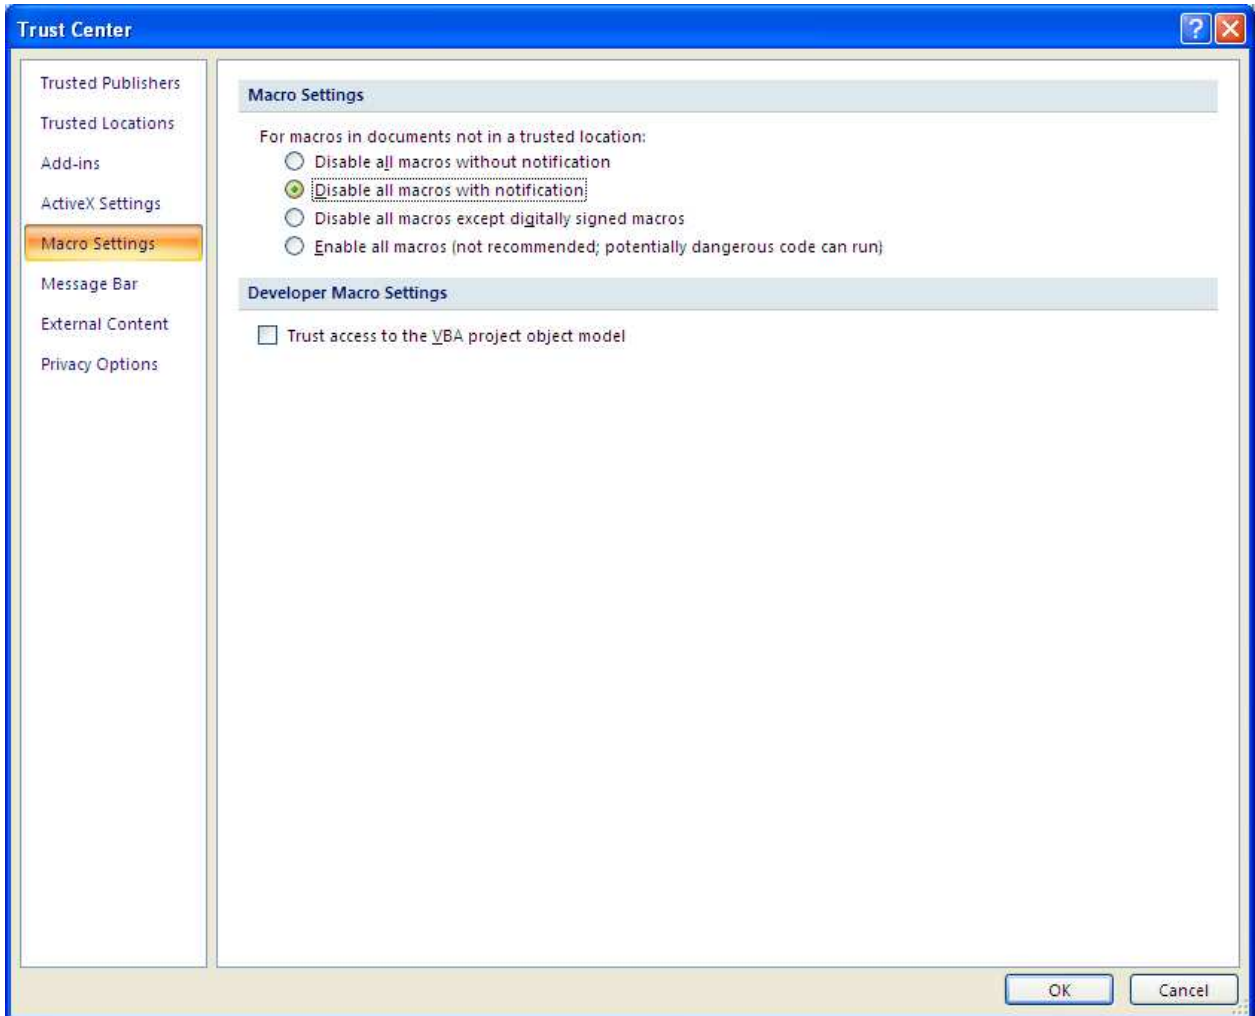

1. Launch Excel and start on a new worksheet.
2. Click the **Microsoft Logo** on the upper left hand corner.
3. Click the **Excel Options** button at the bottom of the drop down menu.

4. Select the **Trust Center** on the left hand navigation menu.
5. Click on the **Trust Center Settings** button located on the middle right side of the page.

6. Select **Macro Settings** on the left hand navigation menu.
7. Select **Disable all macros with notification** from the Macro Settings list.
8. Click the **OK** button to apply the change and exit the menu.
9. Exit the menu and get back to the blank worksheet.

10. Open the Fleet Calculator.
11. In the Security Warning bar, click the **Options** button.

The screenshot shows the Microsoft Excel interface with the file name "Fleet_Calculator_10-0112.xls" in the title bar. The ribbon is set to "Home", and the "Merge & Center" button is highlighted in the Alignment group. A Security Warning bar is displayed below the ribbon, stating "Some active content has been disabled." with an "Options..." button.

The spreadsheet content is as follows:

	A	B	C	D	E	F	G	H	I	J	K	L	M	N
1	Statewide Heavy Duty Truck and Bus Fleet Calculator V.100112													
2	Corresponds to December 2008 Approved Regulation													
3	Check www.arb.ca.gov/dieseltruck for updates and proposed regulation revisions
